USB-C Power Port

Cable Hook

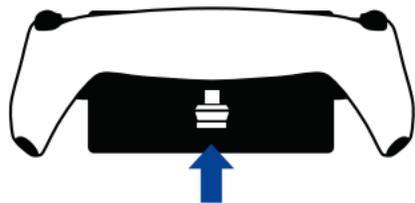

5 ft / 1.5 m
USB-C to USB-C Cable

ENGLISH SETUP

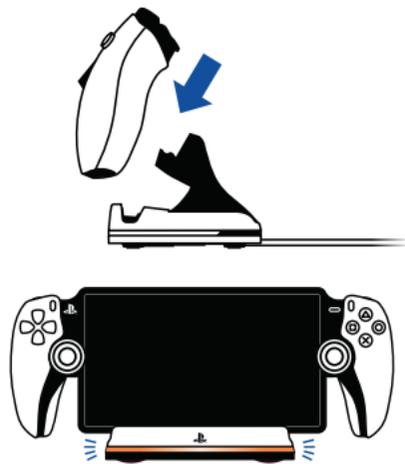

1. Connect one end of the included USB-C cable into an available USB-C port on the PS5® console and connect the other end into the USB-C power port of the charging station.

Once connected, the LED bar will light up in the last used settings.

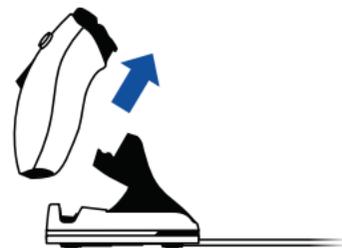

2. Connect the USB-C magnetic charging adapter into the USB-C port of the PlayStation Portal™ remote player.

3. Place the PlayStation Portal™ remote player on the charging station, making sure that the charging contacts are lined up with the bottom of the USB-C magnetic charging adapter.

The LED bar on the charging station will indicate charging has started by flashing or breathing orange depending on mode.

4. Lift the PlayStation Portal™ remote player off the charging station when you are ready to play.

NOTES:

- For best performance, use the cable provided to power the charger.
- When not using the PS5 console as a power source, ensure the charger receives at least 15 watts of power.
- Please read the Lumetra Lighting section for details on the LED bar functions.

LUMECTRA LIGHTING

The charging station features multiple Lumectra lighting modes.

STANDARD

In **Standard** mode, the charging station LED bar will display the following:

Solid White: Charging station has power.

Breathing Orange: Charging station is charging the PS Portal™ remote player.

Solid Blue: The PS Portal™ remote player is fully charged.

CYCLE

In **Cycle** mode, the charging station LED bar will flow through a series of colors, gradually transitioning from one color to the next.

WAVE

In **Wave** mode, the charging station LED bar will flow through a rainbow array of colors from left to right, displaying multiple colors at a time.

PULSE

In **Pulse** mode, the charging station LED bar will fade in and out through a series of colors, displaying one color at a time before moving to the next.

OFF

In **Off** mode, the charging station LED bar will not display any lighting.

NOTE

In Cycle, Wave, Pulse, and Off modes, the LED bar stays in the selected mode but will indicate charge status as follows:

When the remote player is placed on the charging station, the LED bar will flash orange 3 times before returning to the selected mode.

Once the remote player is fully charged, the LED bar will flash blue 3 times before returning to the selected mode.

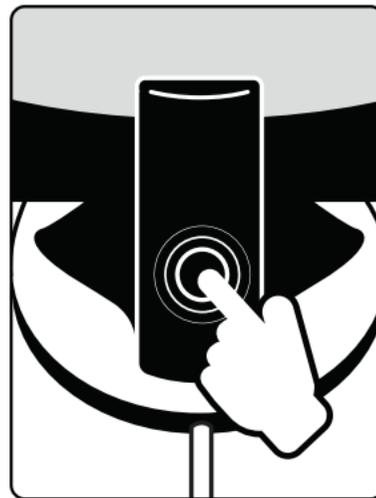

CHANGE MODES

Tap the Lumectra Touch Button on the back of the charging station to toggle through the different modes: Standard, Cycle, Wave, Pulse, and Off.

ADJUST BRIGHTNESS

Hold down the Lumectra Touch Button to adjust the brightness. The brightness will continue to cycle while the button is held. Let go of the button when at the desired brightness.

NOTE:

To turn off the lighting, change the lighting mode to off.

SUPPORT

TROUBLESHOOTING

Q: Why is the PS Portal™ remote player not charging?

- A: Confirm the USB-C cable is properly connected to the charging station and the PS5® console.
- A: Ensure that no dust or debris is blocking the charging contacts on the charging station.
- A: Check your PS5® console power settings and ensure the USB ports are powered on when the console is in Rest Mode.
- A: Confirm the remote player is properly seated on the charging cradle.
- A: The remote player may already be fully charged.

Q: Why is the LED bar lighting off?

- A: The charging station may be set to OFF mode. Tap the Lumectra Touch Button once to set the lighting mode to standard.

A: The brightness may be set too low to be visible in brightly lit surroundings. Hold down the Lumectra Touch Button to adjust the brightness.

WARRANTY

2-Year limited warranty. Visit [PowerA.com/Support](https://www.powera.com/Support) for details.

WARRANTY AGAINST DEFECTS, AUSTRALIA & NEW ZEALAND CUSTOMERS

This product is provided with a 2-year warranty against defects in manufacturing or materials from the date of purchase. ACCO Brands will either repair or replace a faulty or defective product subject to the conditions of this warranty. Claims under this warranty must be made to the place of purchase within the warranty period with proof of purchase by the original purchaser only. Expenses associated with a warranty claim are the responsibility of the consumer. Conditions of this warranty are on our website: [PowerA.com/warranty-ANZ](https://www.powera.com/warranty-ANZ)

This warranty is provided in addition to other rights or remedies available to you under the law. Our goods come with guarantees that cannot be excluded under the Australian Consumer Law. You are entitled to a replacement or refund for a major failure and compensation for any other reasonably foreseeable loss or damage. You are also entitled to have the goods repaired or replaced if the goods fail to be of acceptable quality and the failure does not amount to a major failure.

ENGLISH

WARNING: READ BEFORE PLAYING

A very small percentage of individuals experience epileptic seizures when exposed to certain light patterns or flashing lights. Exposure to certain light patterns while playing video games may induce an epileptic seizure in these individuals. Certain conditions may induce previously undetected epileptic symptoms even in persons who have no history of prior seizures of epilepsy. If you, or anyone in your family, have an epileptic condition, consult your physician prior to playing. If you experience any of the following symptoms while playing a video game—dizziness, altered vision, eye or muscle twitches, loss of awareness, disorientation, any involuntary movement, or convulsions—**IMMEDIATELY** discontinue use and consult with your physician before resuming play.

REGIONAL COMPLIANCE SYMBOLS

More information available via web-search of each symbol name.

Waste Electrical and Electronic Equipment (WEEE): Electrical and electronic devices contain materials and substances that can have damaging effects on human health and the environment. This symbol indicates that this device must not be treated as unsorted municipal waste but must be collected separately. Dispose of the device via a collection point for the recycling of waste electrical and electronic equipment within the EU, UK and in other European countries that operate separate collection systems for waste electrical and electronic equipment. By disposing of the device in the proper manner, you help to avoid possible hazards for the environment and public health that could otherwise be caused by improper treatment of waste equipment. The

recycling of materials contributes to the conservation of natural resources.

Conformit Europeene aka European Conformity (CE): A declaration from the manufacturer that the product meets applicable European Directives and Regulations for health, safety, and environmental protection.

UK Conformity Assessment (UKCA): A declaration from the manufacturer that the product meets applicable UK Regulations for health, safety, and environmental protection.

The RCM (Regulatory Compliance Mark) indicates that the product complies with the relevant Australian and New Zealand electrical safety, electromagnetic compatibility (EMC) and related requirements.
